Revision history 19

A. Background

The subdivisions listed below may be used on a free-floating basis, as appropriate, under subject headings for ethnic groups, including preliterate groups, historic peoples no longer in existence, races, and ethnic groups in the United States, for example, ***Berbers***; ***French-Canadians***; ***Aboriginal Australians***; ***Hmong (Asian people)***; ***Dinka (African people)***; ***Turkic peoples***; ***Minoans***; ***Black people***; ***Cuban Americans***; ***Scandinavian Americans***. The category also includes the heading Jews and headings for Jews of various nationalities, for example, ***Jews, Italian***, except for subdivisions noted in the list below and indicated by UF references in the subject authority file. Also included are headings for nationalities such as ***Danish***, ***Asians***, and ***Ukrainians***, when they are used to designate those nationalities or regional inhabitants outside their native countries or regions.

The category includes headings for the Indigenous peoples of the Western Hemisphere: ***Indians***; headings for the five major regional groupings of Indians: ***Indians of Central America***; ***Indians of Mexico***; ***Indians of North America***; ***Indians of South America***; and ***Indians of the West Indies***; as well as groups of tribes and individual tribes established as subject headings. Examples: ***Aleuts***; ***Eskimos***; ***Navajo Indians***; ***Spokane Indians***; ***Uto-Aztecan Indians***; ***Zapotec Indians***. The separate pattern list for groups of Indians, H 1152, was discontinued in February 1994. This list does not cover the general headings Indigenous peoples and Tribes, nor the jurisdictional name headings established to represent the governments of tribes recognized by the United States government, for example, ***Spokane Tribe of the Spokane Reservation, Washington***.

For guidelines on subdivisions used under classes of persons, including age and sex groups, social, economic, and political categories, members of religions, occupational groups, etc., see H 1100. Headings for such classes of persons qualified by ethnic or national adjectival qualifiers,

such as ***African American dentists***, ***French students***, or ***Foreign workers, Turkish***, are also covered by H 1100 rather than this list.

Nationalities: Do not subdivide headings for nationalities by subdivisions on this list to designate a topic in conjunction with a nationality in its own country. Instead, express the topic by headings of the type: ***[topic]–[place]*** or ***[place]–[topic]***, for example, ***Mental health–United States***, not Americans–Mental health; ***Spain–Antiquities***, not Spanish–Antiquities. Subdivisions on this list may be used under headings for nationalities only to express topics in conjunction with those nationalities outside their native countries, for example, ***Spanish–Florida–Antiquities***; ***Turks–Employment–Germany***. For guidelines on the construction and use of headings for nationalities, see H 1919.5.

LC practice: As stated in H 1075, LC catalogers will no longer use form subdivisions. Instead assign an appropriate term or terms from Library of Congress Genre/Form Terms (LCGFT), e.g. ***Textbooks***. To replace a form subdivision that includes a demographic group, also assign Library of Congress Demographic Groups Terms (LCDGT) to bring out the audience of the resource being cataloged, e.g. ***German speakers*** or ***Arabic, Students of***.

B. Recent revisions

2026-01: Added instructions related to LCGFT implementation.

C. Nationalities

Do not subdivide headings for nationalities by subdivisions on this list to designate a topic in conjunction with a nationality in its own country. Instead, express the topic by headings of the type: ***[topic]–[place] or [place]–[topic]***, for example, ***Mental health–United States***, not Americans–Mental health; **Spain–Antiquities**, not Spanish–Antiquities. Subdivisions on this list may be used under headings for nationalities only to express topics in conjunction with those nationalities outside their native countries, for example, ***Spanish–Florida–Antiquities***; ***Turks–Employment–Germany***. For guidelines on the construction and use of headings for nationalities, see H 1919.5.
