Revision history 6

A. Background

The subdivisions listed below may be used on a free-floating basis, as appropriate, under subject headings for individual families, dynasties, royal houses, etc., for example, ***Smith family***; ***Ptolemaic dynasty, 305-30 B.C.***; ***Bourbon, House of***; ***Normandy, Dukes of***.

Note: Most form subdivisions coded $v in this list may also be used as topical subdivisions coded $x when assigned to works about the form (see H 1075, sec. 1.d.).

LC practice: As stated in H 1075, LC catalogers will no longer use form subdivisions. Instead assign an appropriate term or terms from Library of Congress Genre/Form Terms (LCGFT), e.g. ***Textbooks***. To replace a form subdivision that includes a demographic group, also assign Library of Congress Demographic Groups Terms (LCDGT) to bring out the audience of the resource being cataloged, e.g. ***German speakers*** or ***Arabic, Students of***.
