Bibliographies about Individual Persons

H 1322

A. Background 1

B. Recent revisions 1

C. General rule 1

D. Special topics 1

E. Revision history 2

A. Background

LC practice: As stated in H 1075, LC catalogers will no longer use form subdivisions. Instead assign an appropriate term or terms from Library of Congress Genre/Form Terms (LCGFT), e.g. ***Bibliographies***.

For guidelines on abstracts, see H 1205. For guidelines on bio-bibliographies, see H 1328. For guidelines on bibliographies of bibliographies, see H 1325. For catalogs of library materials, see H 1361. For guidelines on digests of legal materials, see H 1550.

B. Recent revisions

2026-01: Updated template. Added instructions related to LCGFT implementation.

C. General rule

Use the free-floating subdivision ***--Bibliography*** under names of individuals for lists of works by or about those persons.

For lists of musical works by a person that include musical notation for the opening measures of individual works or sections of works, use the free-floating form subdivision ***--Thematic catalogs***.

LC practice: Assign the names of individuals for lists of works by or about those persons. Assign LCGFT appropriate to the form and/or genre of the resource in hand, e.g. LCGFT ***Bibliographies*** and/or a more specific term, e.g. ***Thematic catalogs (Music)***.

D. Special topics

If the bibliography has a topical orientation, assign an additional heading of the type ***[topic]--Bibliography*** to bring out the topic.

Example:

```
600 10 $a Freud, Sigmund, $d 1856-1939 $v Bibliography
650 #0 $a Psychoanalysis $v Bibliography
655 #7 $a Bibliographies. $2 lcgft
```

LC practice: If the bibliography has a topical orientation, assign a heading to bring out the topic in addition to the name of the person or persons. Assign LCGFT appropriate to the form and/or genre of the resource in hand, e.g. LCGFT ***Bibliographies*** and/or a more specific term, e.g. ***Thematic catalogs (Music)***.

E. Revision history

2026-01: Updated template. Added instructions related to LCGFT implementation.
