I. Imprints on a specific topic 3
Revision history 3

A. Background

LC practice: As stated in H 1075, LC catalogers will no longer use form subdivisions. Instead assign an appropriate term or terms from Library of Congress Genre/Form Terms (LCGFT), e.g. ***Catalogs***.

For guidelines on catalogs, see H 1360. For guidelines on catalogs of library materials, see H 1361. For guidelines on collections of objects, see H 1427. For guidelines on publishers' catalogs, see H 1965.

B. Recent revisions

2026-02: Updated template. Added instructions relating to LCGFT implementation.

C. The subdivision --Imprints

Use the free-floating form subdivision ***--Imprints*** under individual regions, countries, cities, etc., for lists of works published in those places without regard to the language in which they were published, for example, ***United States--Imprints***.

LC practice: To bring out the place of imprints, assign***Publications--[place]***. Also assign LCGFT ***Bibliographies*** if appropriate to the resource in hand.

D. Phrase headings

Use phrase headings of the type ***[language] imprints*** for lists of works published in a particular language. Use geographic subdivision to refer to the place of origin, for example, ***English imprints--India***.

E. Imprints from places where a single language predominates

As a general rule, assign only the heading ****[place]--Imprints**** for lists of works published in places where a single language is predominant, for example, the United States. Since English is the predominant language in the United States, do not assign an additional heading of the type ***English imprints--United States***.

F. Assignment of additional heading with [language] imprints

When assigning a heading of the type ****[language] imprints*** subdivided by place, assign an additional heading of the type ***[place]--Imprints***.

LC practice: To bring out the place of imprints, assign ***Publications--[place]***. Also assign LCGFT ***Bibliographies***.

Example:

```
Title: A list of books in English published in India.
   650 #0 $a English imprints $z India.
   651 #0 $a India $v Imprints.
LC practice:
   650 #0 $a English imprints $z India.
   650 #0 $a Publications $z India.
   655 #7 $a Bibliographies. $2 lcgft
```

G. Catalogs

For catalogs listing imprints existing at designated localities or available from specified sources, assign as appropriate either ***[place]--Imprints--Catalogs*** or ***[language] imprints--Catalogs***.

Note: The place used with either heading refers to place of origin.

LC practice: To bring out the place of imprints, assign ***Publications--[place]***. Also assign LCGFT ***Bibliographies*** and ***Catalogs***, or the more specific term.

Example:

```
Title: The Rajasthan University Library catalog of Indian imprints in
English.
```

```
650 #0 $a English imprints $z India $v Catalogs.
651 #0 $a India $v Imprints $v Catalogs.
610 20 $a Rajasthan University Library $v Catalogs.
```

LC practice:

```
650 #0 $a English imprints $z India.
650 #0 $a Publications $z India.
610 20 $a Rajasthan University Library.
655 #7 $a Bibliographies. $2 lcgft
655 #7 $a Library catalogs. $2 lcgft
```

H. Bibliography not used

Do not further subdivide headings of the type ***[language] imprints*** and ***[place]--Imprints*** by the subdivision ***--Bibliography***.

LC practice: Assign LCGFT ***Bibliographies***.

I. Imprints on a specific topic

For lists of imprints on a specific topic, also assign a heading of the type ***[topic]--Bibliography***.

LC practice: Assign a subject heading for the topic. Also assign LCGFT ***Bibliographies***.

Example:

Title: A list of English-language books on medicine published in India.

```
650 #0 $a Medicine $v Bibliography.
650 #0 $a English imprints $z India.
651 #0 $a India $v Imprints.
```

LC practice:

```
650 #0 $a Medicine.
650 #0 $a English imprints $z India.
650 #0 $a Publications $z India.
655 #7 $a Bibliographies. $2 lcgft
```
